

# Saving time

GROWING  
DAIRY'S  
FUTURE

## Milking efficiency

[www.dairynz.co.nz/milking](http://www.dairynz.co.nz/milking)

Herringbone Rotary

## Key points

- Technology 'makes milking easier'
- Gains from improved milking routines
- Rotary
  - speed up the platform
  - automate at cups-off

## Pasture measurement

Automated  
pasture  
measurement

Apps

## Key points

- Frequent & accurate measurement important
- Apps support team communication
- Pasture management is not an office job

# Making money

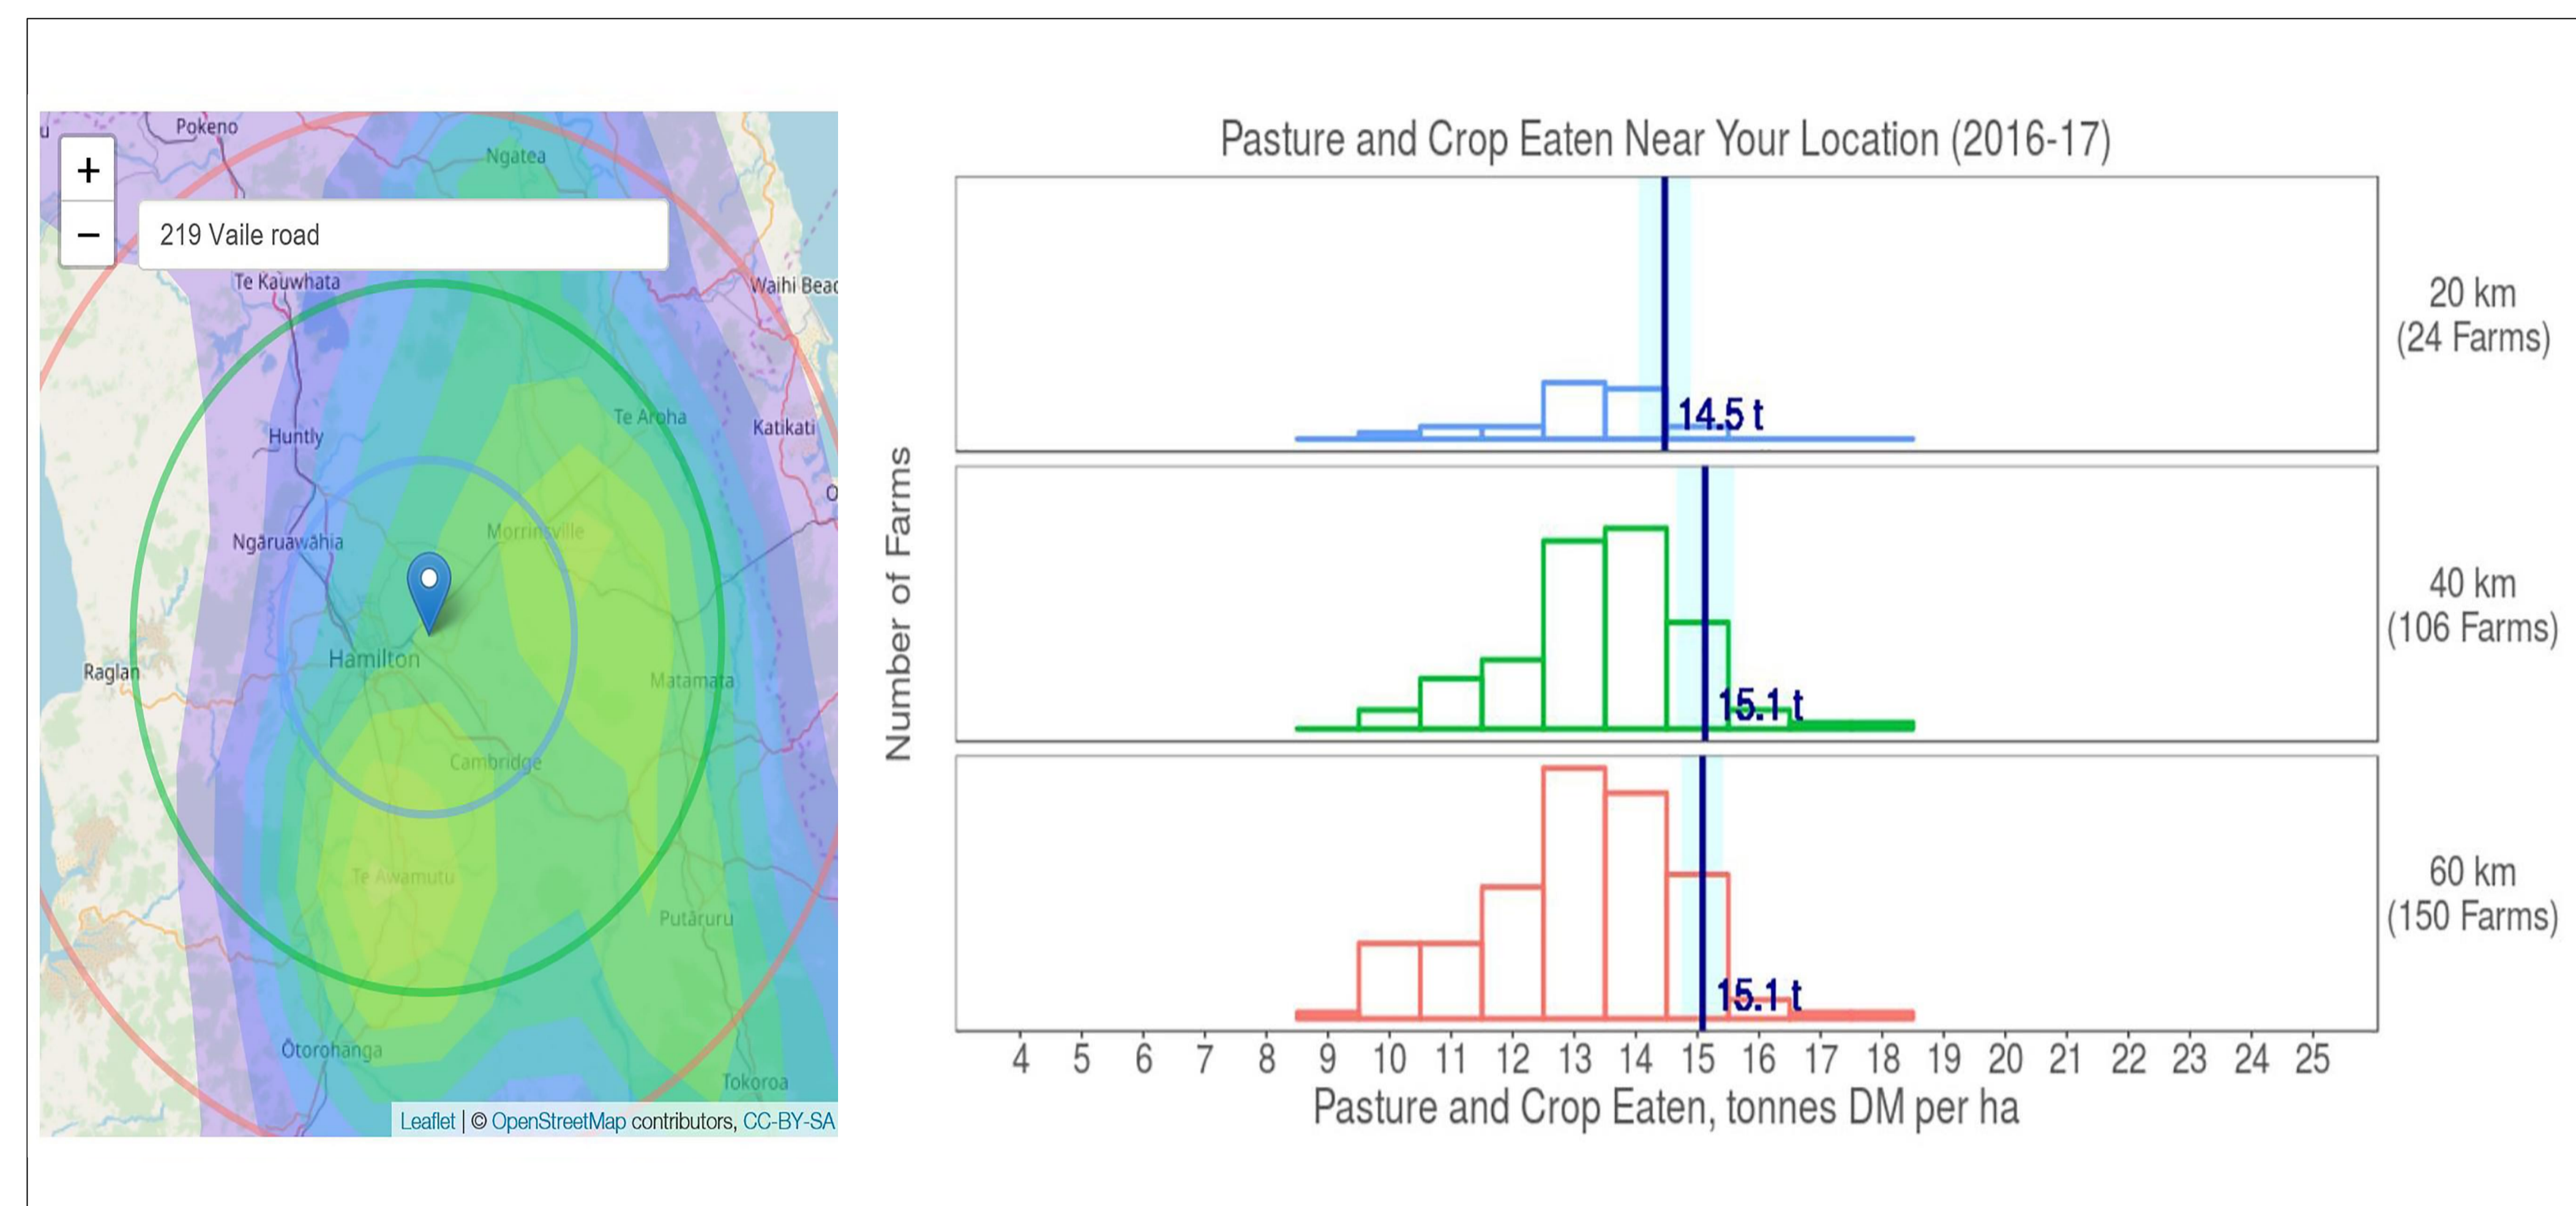

GROWING DAIRY'S FUTURE

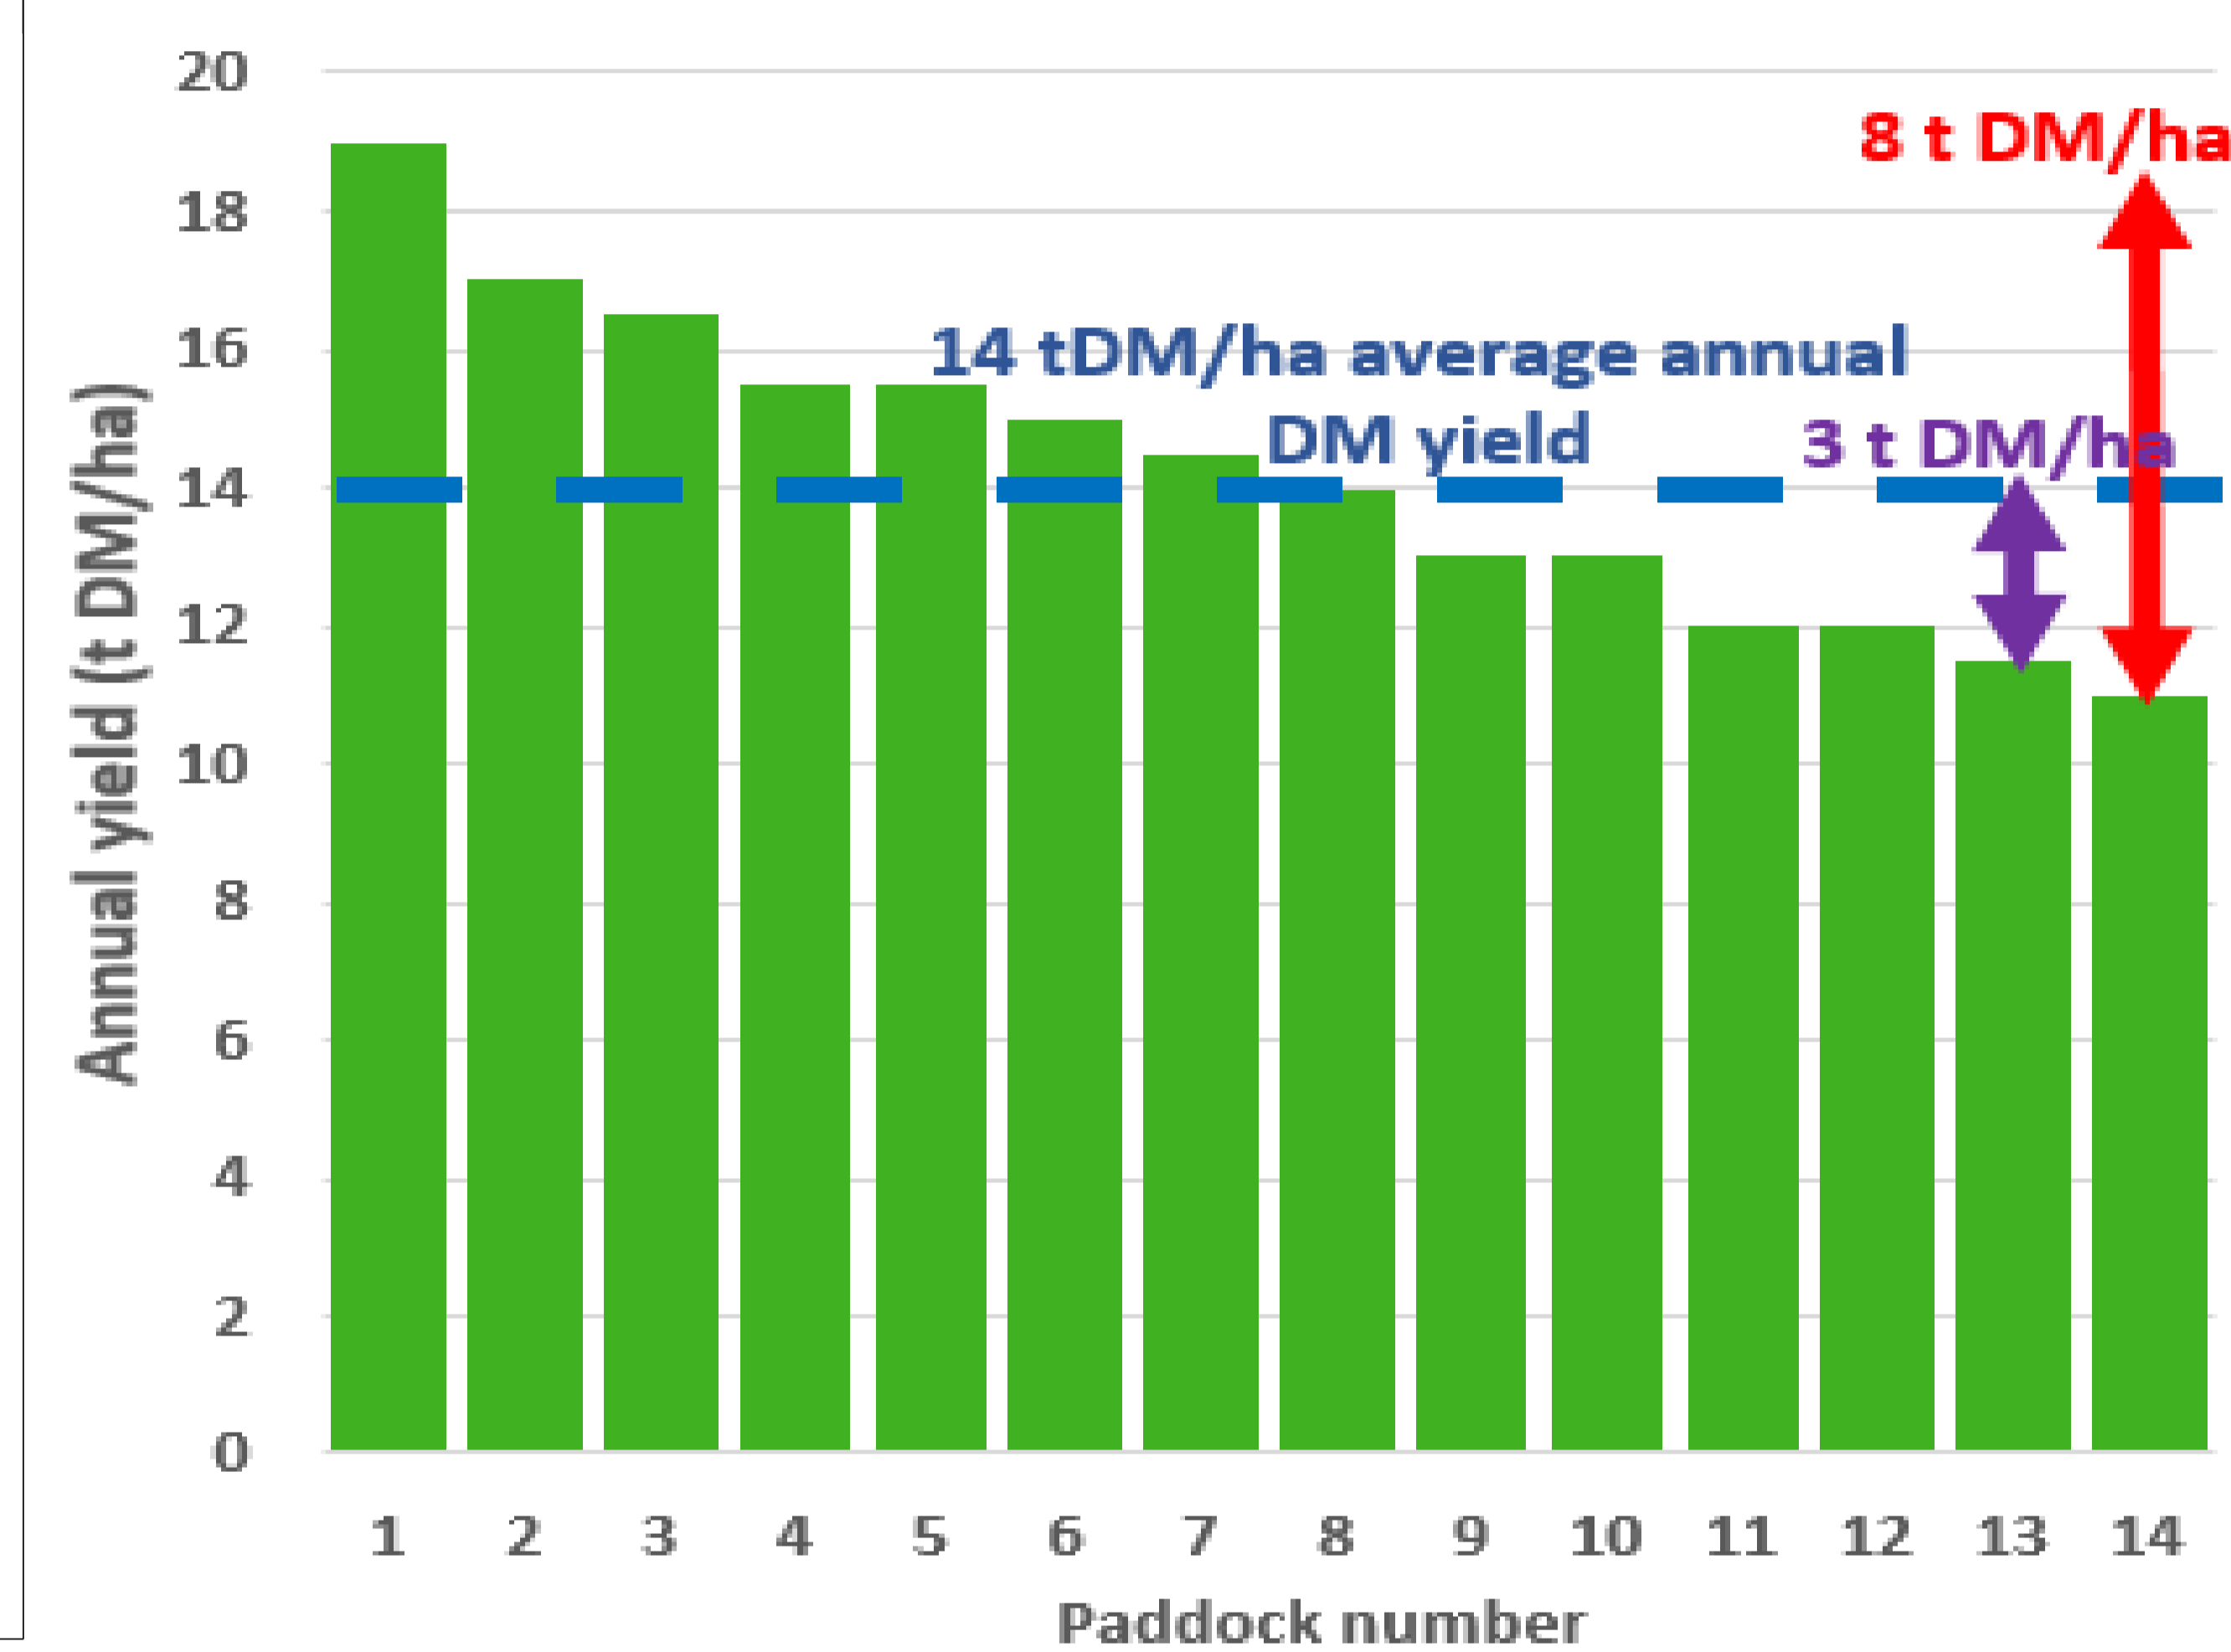

## Closing the pasture eaten gap

[www.dairynz.co.nz/pasture-potential](http://www.dairynz.co.nz/pasture-potential)

### Farm performance

### Paddock performance

### Key points

- Local benchmarking to estimate the gap
- Extra tonne of DM eaten/ha = \$300 /ha profit

## People & technology meeting the challenges

- Smarter decisions with less labour
- World class animal care
- Motivated people
- Environmental leadership
