SOUTHLAND

OUTLINE PROGRAMME

Come to Pasture Summit's Autumn Event, organised by farmers for farmers, with input from dairy sector specialists, sharing ideas and developments on achieving profitable dairy food production from grass.

We're in the business of turning grass to milk to cash - it's our key competitive advantage. Our host farmers are focused on achieving strong bottom-line financial performance and growth. They will present their costs and returns and discuss their farm management strategy to drive profit now and into the future.

Herd reproduction will be covered in detail and a panel discussion will explore equity growth pathways for young farmers wanting to progress in dairying.
